3.00 pm CEST

## Division Spotlight Series Smart Materials

with

Claus Rettig, President Smart Materials  
Ralf Düssel, SVP High Performance Polymers  
Gerd Löhden, SVP R&D Smart Materials

Ladies and gentlemen,

After the successful implementation of our new divisional structure in 2020, we take it a step further this year: We are hosting a "Division Spotlight Series" for our three growth divisions over the first half of 2021. The division Nutrition & Care made its debut in April.

Now this fully virtual format for financial analysts & investors goes ahead with the division **Smart Materials on June 24 at 3.00 pm CEST** and is scheduled for approximately 1.5 hours.

The division representatives will give you further insights into the division, present its strategy as well as the most attractive growth areas.

The presentations will be followed by a Q&A session. You can place your questions anytime during this event via chat.

The registration is already open. Please register under the following link:

<https://webcast.framework.techcast.com/en/evonik/division-spotlight-series-smart-materials>

Once you have registered, you will receive a confirmation via email including a link that leads you directly to the webcast. This is more convenient for you, as no additional log-in is necessary on the division day itself.

The presentation and documents for the event will be available on June 24 at 2.30 pm CEST (i.e. 30 minutes ahead of the event) on the IR website.

Just as a reminder: The next "Division Spotlight" will follow on July 1<sup>st</sup> for Specialty Additives.

We are looking forward to welcome you.

Sincerely,

Evonik Investor Relations
