

Innovation networks as drivers of our strategy

Ulrich Küsthardt | June 27, 2019, Duesseldorf

Intelligent linking of individual components to innovation networks

Example: Project House Medical Devices

Healthcare Solutions as Innovation
Growth Field

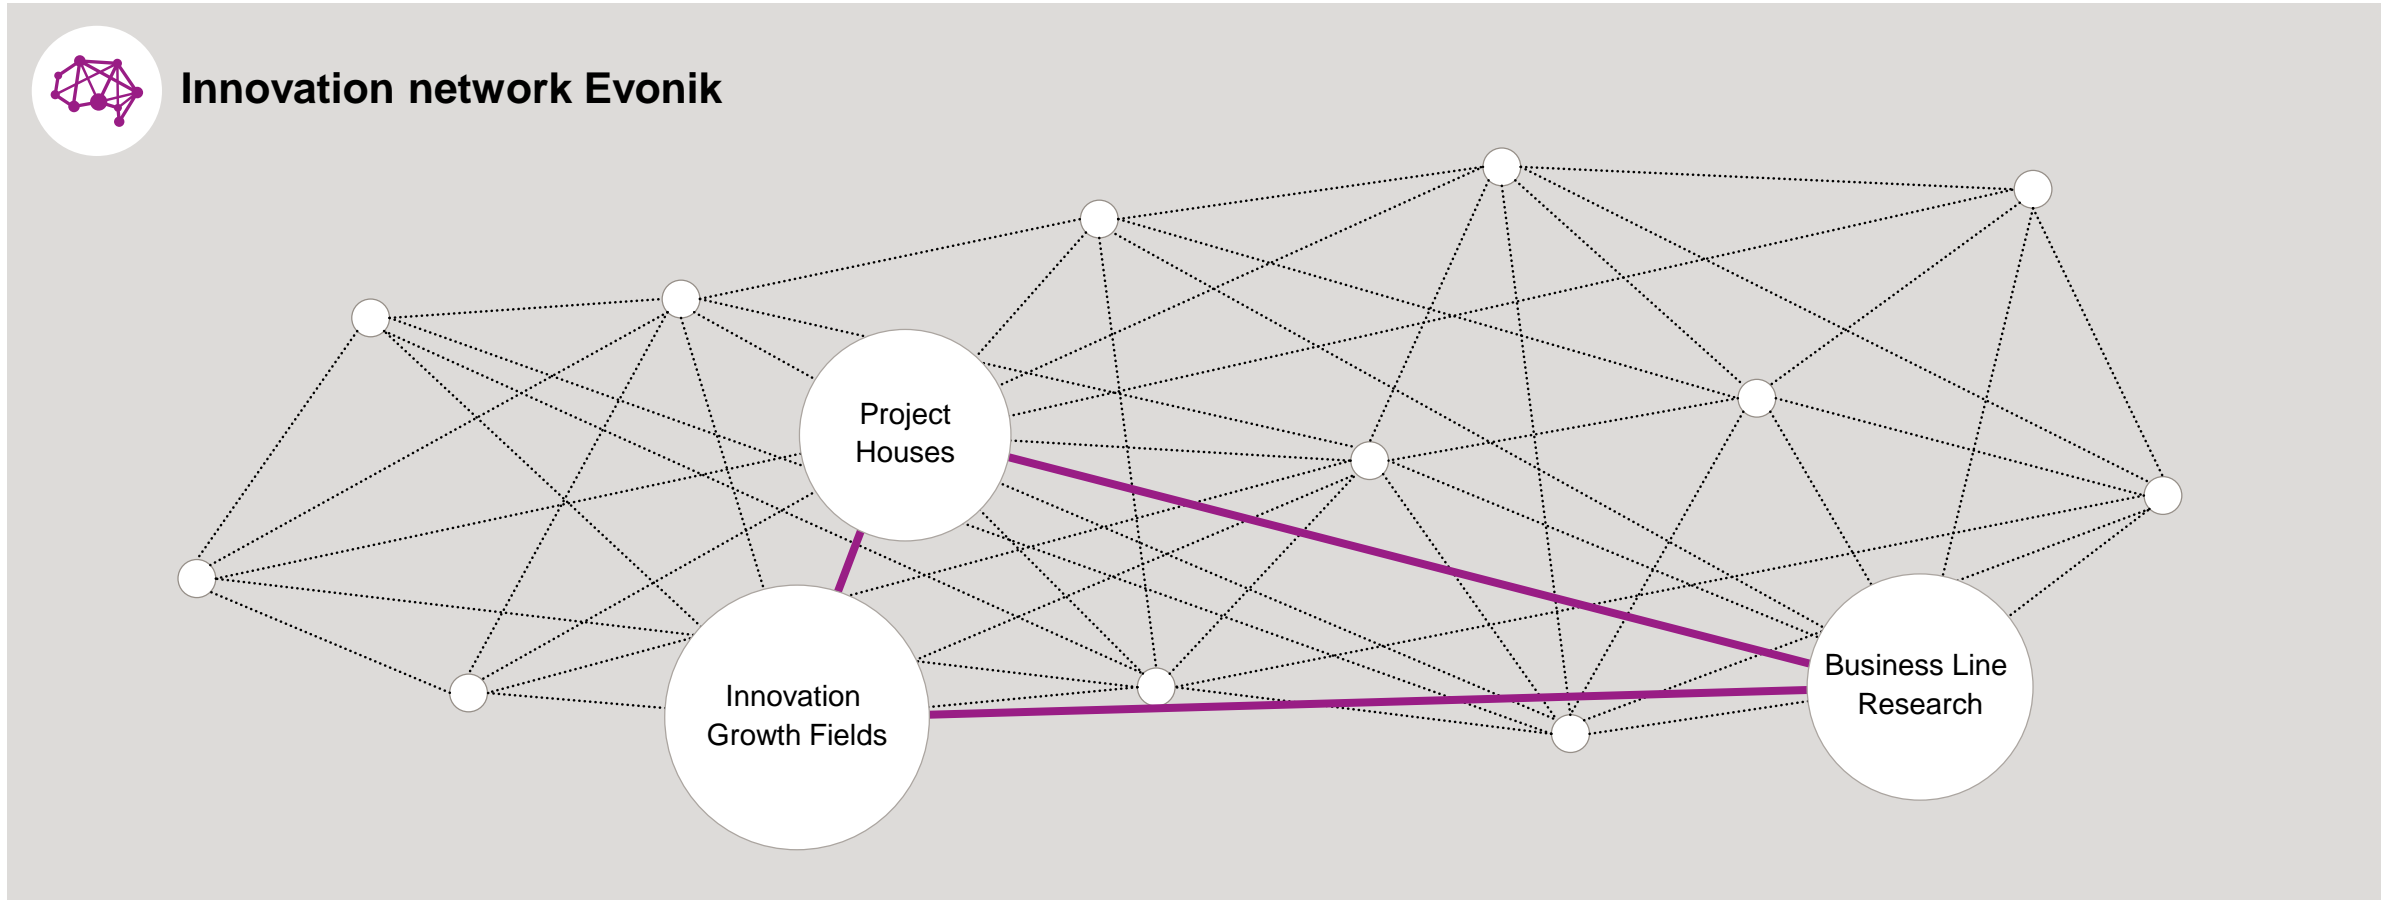

Project House combines expertise in
high-performance plastics with
knowledge in the health care sector

Projects successfully transferred to the
Health Care business in 2018

Consistent continuation: Project House
Tissue Engineering

Example: Project House Medical Devices

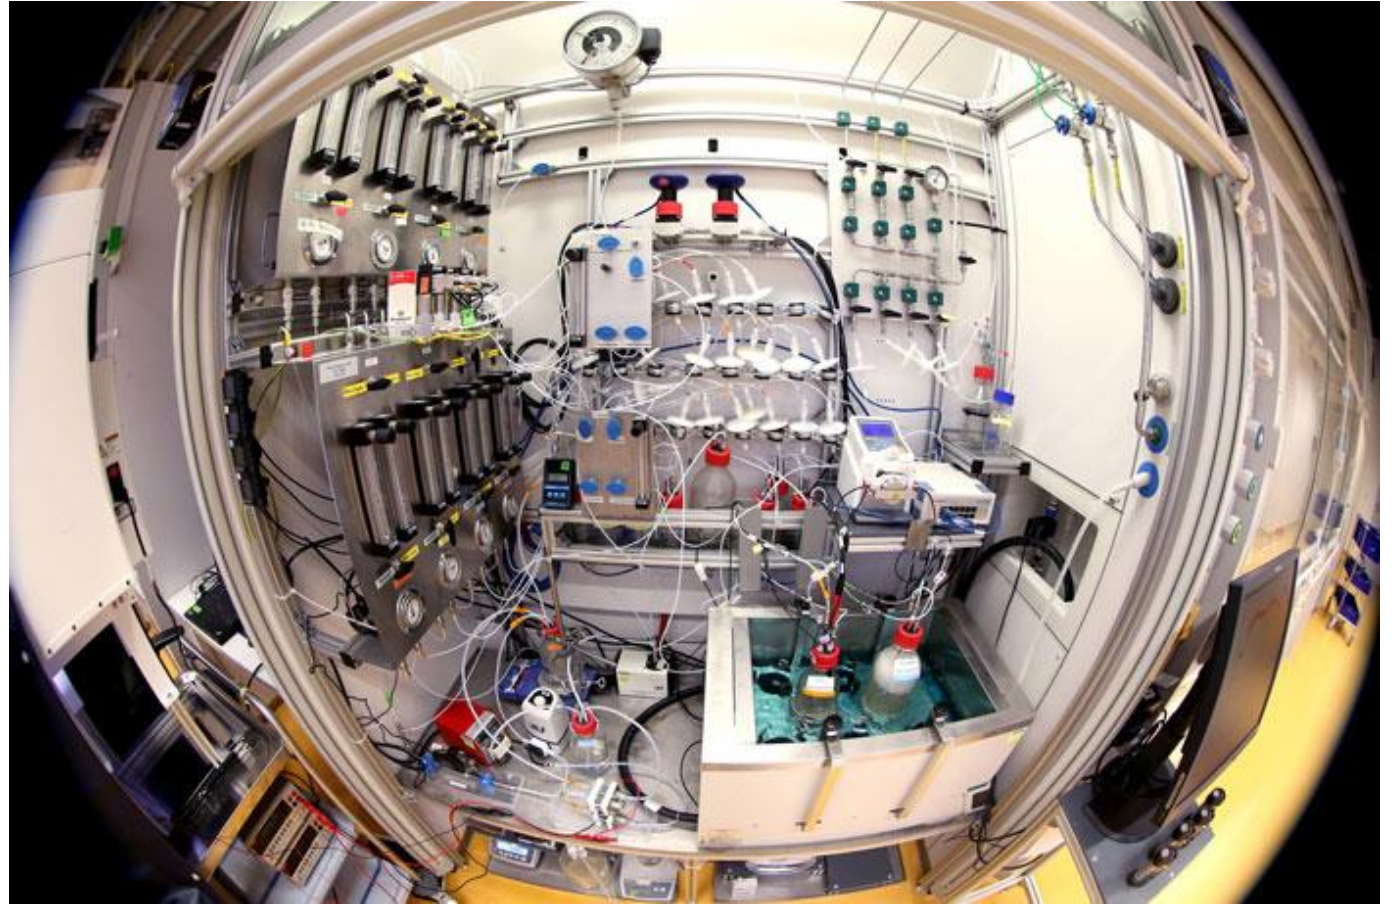

Example: Rheticus

Co-operation between Evonik and Siemens

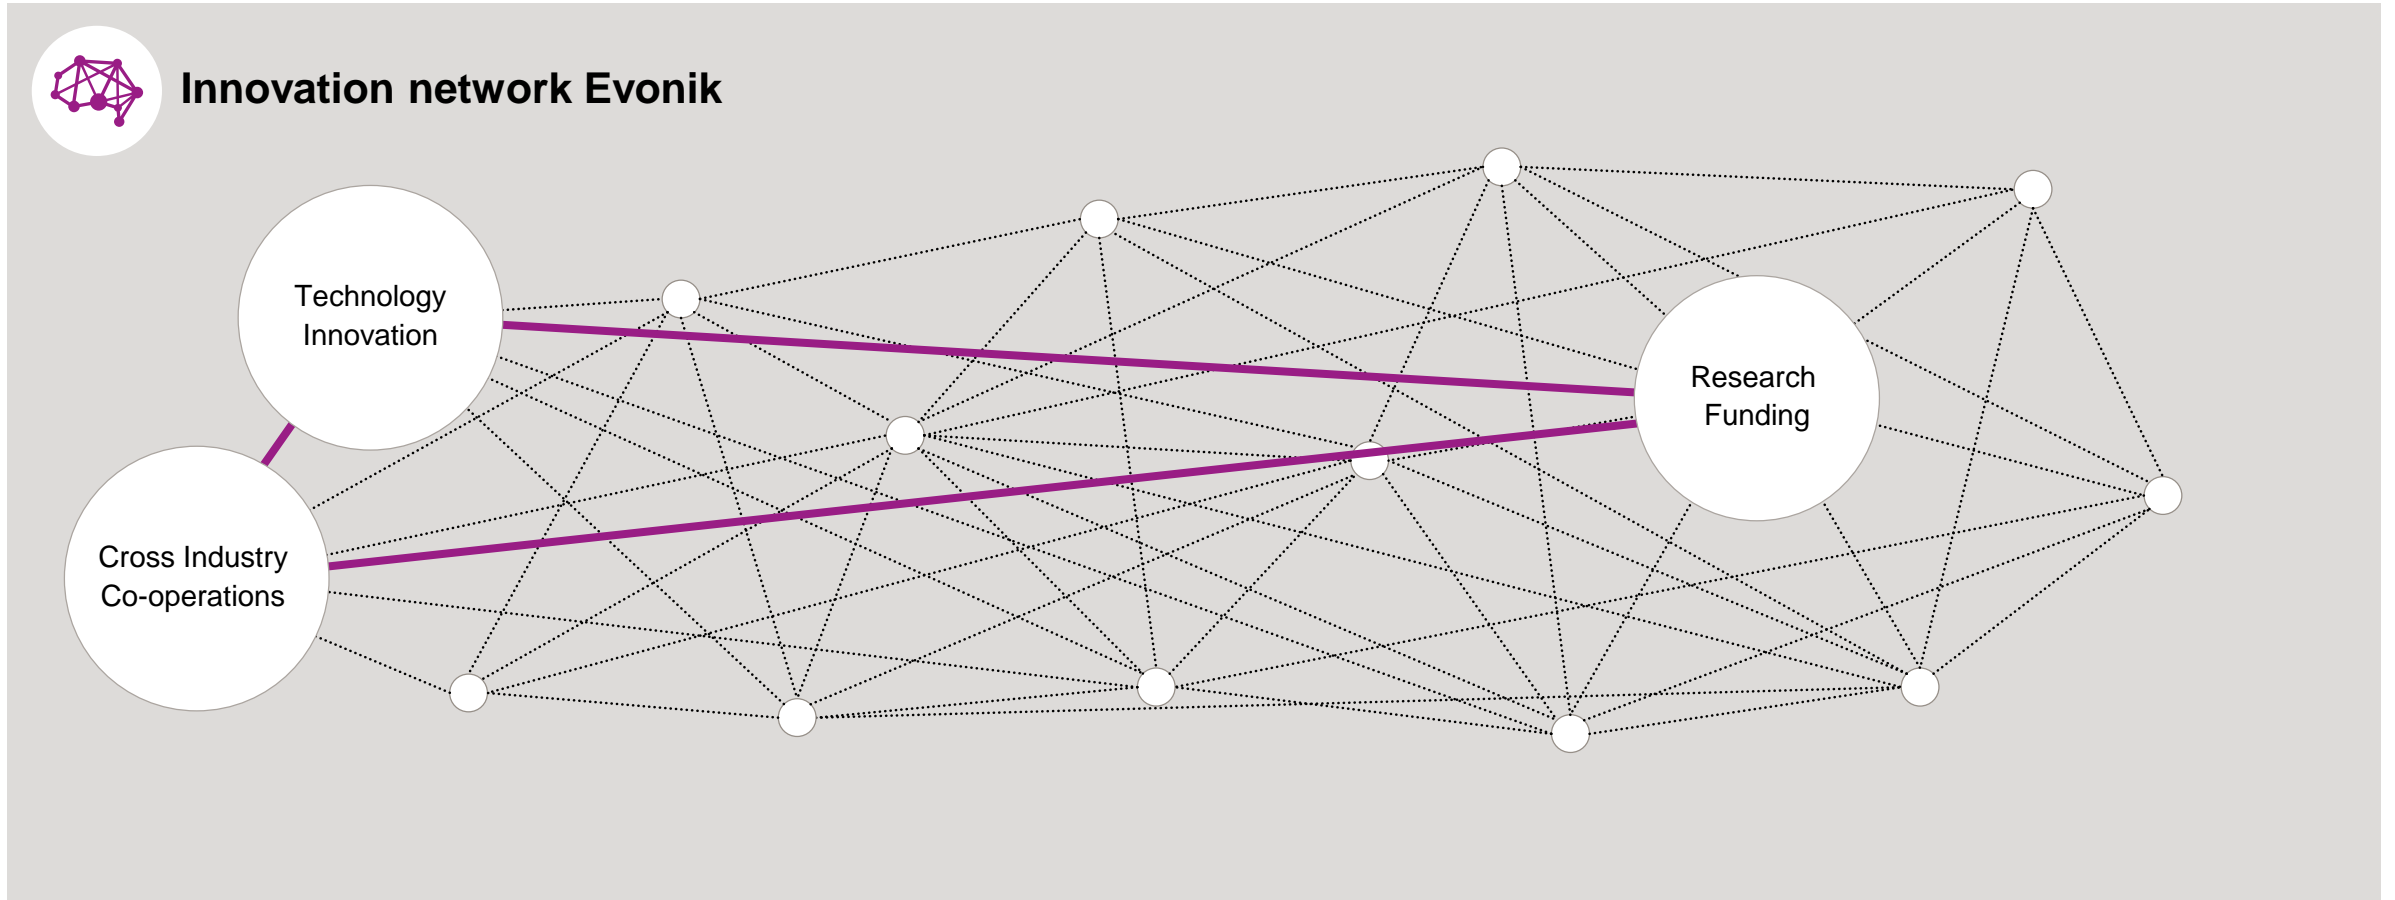

Objective: Using renewable electricity and bacteria to convert carbon dioxide into specialty chemicals

First contact of the partners initiated by the team active in cross industry innovation

SIEMENS
Ingenuity for life

Example: Rheticus

EVONIK

POWER TO CREATE
